proNET

ProNetworks:

**Supporting inter-sectoral networks in the integration of
university drop-outs into vocational education and
training**

Newsletter No. 3/2017

Welcome to the third newsletter of the project *ProNetworks*.

We would be delighted if you would send this newsletter to interested colleagues in the education and career counselling services!

Best regards,
Your *ProNetworks* team

Instruments available in six languages:

The project website and the online tool have been translated and are now available in the following languages: *German, English, French, Polish, Spanish, Czech*

Thank you for your feedback. We were able to improve the tool again in the following points

- Personalized training proposals are provided with links to further information
- Integration of a graphical progress bar to better estimate the remaining processing time
- Improved information text

Your benefits - compactly summarized

Website:

Online tool: The online tool is directly accessible from the project website

<http://www.university-dropout.com/index.html>

Guidelines: The Guidelines provide you with the opportunity to understand the content development of the online tool as well as its classification into a consulting process. In addition, a transnational report provides insights into initiatives and networks in the partner countries.

Guidelines and a transnational report are available for download at http://www.university-dropout.com/en_network.html

International network:

We would like to invite you to exchange on an international level. For this purpose, you can request a list of over 90 network contacts at <http://www.university-dropout.com/network.html>. If you would like to be part of the network, please send an email to: info@university-dropout.com

Documentation of the closing event

The final event of the project took place on Jun 23rd 2017 in Berlin. The event was entitled „Bridges to permeability – from Higher Education (HE) to Vocational Education and Training (VET)“. Objectives of the event were to present instruments of time recognition and crediting in the IT area.

The documentation materials can be downloaded at <http://bruecken-bauen.f-bb.de>.

The Website remains online

All project results will remain available even after the end of the project period, and we would be delighted if you used the tool in your consulting process and passed it on to your clients. The ProNetworks project will end on 31 August 2017. We would like to thank you for helping us to improve the project results continuously to meet the needs of the target group.
