proNET

ProNetworks:

Supporting inter-sectoral networks in the integration of university drop-outs into vocational education and training

Newsletter No. 2/2017

Welcome to the second newsletter of the project *ProNetworks*.

We would be delighted if you would send this newsletter to interested colleagues in the education and career counselling services!

Best regards,
Your *ProNetworks* team

News:

Currently, the online tool and the website are in the translation. In a short time, they will be available in *German, English, Spanish, Czech, Polish and French*.

Your participation in an international network:

A list of international contacts will soon be available on request for further networking on the website. If you would like to be available as a network contact with your expertise on international exchange, please send us a short message to info@university-dropout.com.

Documentation of the closing event

The final event of the project took place on Jun 23rd 2017 in Berlin. The event was entitled „Bridges to permeability – from Higher Education (HE) to Vocational Education and Training (VET)“. Objectives of the event were to present instruments of time recognition and crediting, which increase the permeability from university into the IT area. Their usefulness for the counseling of university drop-outs was discussed and perspectives, which build bridges between higher education and vocational education and training, were shown.

The documentation materials can be downloaded at <http://bruecken-bauen.f-bb.de>.

Development online tool and website

In all partner countries, multiplier events were held to present the online tool to selected experts in a first version. We requested feedback and suggestions for improvement during these events. This feedback has been incorporated into the further development. We would like to invite you to visit our website www.university-dropout.com and register there for the online tool.

Please forward the website and the online-tool to your clients.

We wish you every success in your exploration!

Thank you!
